Keep Rural Schools Growing!

Help Lewiston Consolidated School Compete for a grant of up to \$25,000

America's Farmers Grow Rural Education, sponsored by the Monsanto Fund, gives rural public school districts the opportunity to compete for grants of \$10,000 or \$25,000 for crucial science and math programs. Eligible farmers can nominate local public school districts for a grant. So, ask all of the local farmers you know to **nominate our school today**.

Farmers in 1,326 counties across 40 states have the opportunity to keep rural schools growing by nominating the local public school district of their choice to apply for a grant. In 2016, the Monsanto Fund will again award \$2.3 million to rural school districts.

Grant applications will be judged based on merit, need, and community support. The more farmers we have nominate our school district, the more it demonstrates community support and can help strengthen our application.

For additional information about the program, visit www.GrowRuralEducation.com. Contact Lewiston Consolidated School at 402-865-4675 if you need assistance with the application.

Senior Information

It's FAFSA Time!

If you are a college-bound senior, you must complete FAFSA (Free Application for Federal State Aid) to apply for state, federal, and college-based financial aid. Submit the form before your college's FAFSA priority date (typically between March 1 and April 1) as some financial aid is awarded first-come, first served. Check with your college(s) to learn their priority date. This is a FREE service at FAFSA.gov (if you are asked to pay, you are at the incorrect site).

Follow these steps to complete the FAFSA:

- Create a Federal Student Aid ID (FSA ID) for you and one for a parent at fsaid.ed.gov. You'll use the ID to access the FAFSA and other Federal Student Aid websites, and as your electronic signature for the FAFSA.
- Complete your taxes early as the FAFSA requires current tax information. Within three weeks after you and your parents file your tax forms, your IRS data should be available to retrieve and transfer into your FAFSA through the IRS Data Retrieval process (available as of February 7, 2016).
- Gather these student and parent items:
 - 2015 federal income tax forms and, if applicable, Schedule K-1 (Form 1065)
 - 2015 W-2 forms
 - Student driver's license number
 - Social Security numbers
 - Birth dates
 - Date parents were married, separated, divorced, or widowed
 - Current cash, savings, and checking account balances
 - Current investment values (stocks, bonds, mutual funds, CDs, etc.) excluding your home and retirement accounts
 - Value of business (if more than 100 employees)
 - Value of investment farm (Do not include the value of a family farm that you or your parents live on and operate.)
 - 2015 child support (paid and/or received)
 - 2015 Workers' Compensation
 - Other untaxed income in 2015 such as housing/food/living allowances for military and clergy
 - Alien Registration Number for eligible non-citizens
 - Be prepared to indicate on the FAFSA if during 2015, you or anyone in your household received Supplemental Security Income, SNAP, TANF, Free or Reduced Lunch, and/or WIC.
- Complete the FAFSA at FAFSA.gov. The colleges you list on the application should receive the results within 48 hours.

Other Scholarship Information

Seniors have received a sheet that has a list of scholarships that I have received during the course of this school year. The scholarship list is also available on the bulletin board outside of the main office. As scholarships become available, I will continue to update this list and send it out to seniors. In addition, you can check out the scholarship page on my website. You may access this through the Lewiston Consolidated webpage by clicking on the staff link at the top of the page and clicking my name (Lisa Hermsmeier) under certified staff. Seniors can also apply for scholarships through EducationQuest at www.scholarshipquest.org. I am here to assist with any questions or assistance with the scholarship application process. Please do not hesitate to ask any questions that you or your student may have.

Looking for a fun after school activity for your child? Consider signing up for a 4-H Afterschool Workshop hosted by the Nebraska Extension Office in Pawnee County. This year five workshops will be offered focusing on a unique theme. Youth may attend one workshop or all five workshops as each day will have new hands-on science activities. All students may participate regardless of their 4-H membership, and financial assistance may be available upon request.

Design Squad: Do you enjoy building things or learning how things work? Students will explore the design and function of robotic arms, hands, and grippers and build a robotic arm that really moves! This club will meet from after school until 5:00PM on March 17, 31, April 14, & May 5. It is open to students grades 3-6 and only costs \$10 to participate.

For more information, a flyer will be sent home from school a few weeks before the workshops or download it from <http://www.pawnee.unl.edu/county4h>. Contact the Pawnee County Extension Office with any questions at [\(402\)852-2970](tel:(402)852-2970).

Pre-K 3 News

February was short and sweet in Pre-K 3! We started out the month learning about Groundhog's Day, and we were all super excited that Mr. Phil did not see his shadow! The very next day, we celebrated our 100th Day of School. This day was spent making a 100th Day collage, stringing 100 fruit loops, stacking/building with 100 cups, and constructing with 100 marshmallows. From there, we brushed up on our knowledge of dental health. We learned about the effects plaque and sugary foods (ex. Candy and Soda) can have on our teeth, especially if we do not brush them twice a day. This tooth talk transitioned us into our final topic of the month...the human body! We learned about our brains, lungs, heart, stomach, bones, and our five senses. As part of our discussions, we made skeletons with Magic Mold, x-rays with cotton swabs, practiced blowing through a straw to make an art project, and demonstrated the importance of vomiting on the stomach by making our own vomit! During the month of March, we are going to celebrate Dr. Seuss' birthday and explore the various food groups!

Below are pictures of students designing their 100th Day of School Collages!

Lewiston FFA Completes Service Project

The Lewiston FFA Chapter cooperated with the Wymore Good Samaritan Center on a service project recently. The members constructed a gardening bed for the residents.

The FFA wrote a grant to the Thrivent for Lutherans community outreach program. The funds were used to purchase treated lumber to construct a 3' x 10' garden planter. The 32" high bed will allow individuals in wheel chairs to plant spring vegetables and flowers.

Members helping on the project were Olof Olson, Jace Hunt, Austin Zyla, Dillon Richards, Devan Rule, Skyler Salts, Holden Christen, Brandon Zimmerman, and Megan Wehrbein. The project idea was part of the FFA's healthy soils curriculum and part of the "Nutrients for Life" project. "Nutrients for Life" is an elementary and high school curriculum to promote needed plant nutrients for a growing world population.

Mr. Dan Guenther, Good Samaritan administrator, helped the Lewiston Chapter with details on the activity.

Mr. Dan Guenther, Administrator of the Wymore Good Samaritan Center, assisted the Lewiston FFA in constructing a garden bed for the residents. (L - R) Dillon Richards, Devan Rule, and Skyler Salts delivered the project. Funding was made possible by a Thrivent for Lutherans community outreach grant.

Lewiston Agriculture Education students recently completed a gardening planter for the Wymore Good Samaritan Center. Assisting with the project were (L - R) Olof Olson, Holden Christen, Megan Wehrbein, Austin Zyla, Brandon Zimmerman, Dillon Richards, and Jace Hunt.

The Lewiston Ag Education Dept. completed two school projects in the Intro. to Woods Class in January. The student projects were part of the "Nutrients for Life" curriculum of Healthy Soils. This curriculum promotes the importance of plant nutrients in feeding a growing population.

Brandon Zimmerman and Holden Christen constructed a compost bin for the greenhouse from recycled lumber. The wood was scrap from the new building addition. (Pictured on right)

The Woods Class also built a garden bed for use near the greenhouse. This project is constructed from treated lumber purchased from a Thrivent for Lutherans community outreach grant. The garden is for the Lewiston 5th grade to plant this spring. (Pictured on left)
